Jérôme Maquoi

Curriculum Vitae

Personal Details

Name	Maquoi Jérôme
Position	Teaching PhD Student
Work address	Faculty of Computer Science, University of Namur 21 Rue Grandgagnage, 5000 Namur, Belgium
Email	jerome.maquoi@unamur.be
Home page	http://jeromemaquoi.github.io

Education

2022–Present	**PhD in Green Software Engineering**, *University of Namur*, Belgium, Advisors: Prof. Xavier Devroey and Pr. Benoît Vanderose.
2018–2020	**Master of Computer Science**, *University of Namur*, Belgium, Data Science specialty.
2015–2018	**Bachelor of Computer Science**, *University of Namur*, Belgium.

Teaching Experience

2026–Present	**Software Engineering Laboratory (MSc)**, Teaching Assistant at the University of Namur, Approx. 30 students; Software engineering project management.
2024–Present	**Introduction to scientific methodology (BSC)**, Teaching Assistant at the University of Namur, Approx. 40 students; Scientific method concepts, designing exercises and correction, and project management and correction.
2023–Present	**Test and quality (MSc)**, Teaching Assistant at the University of Namur, Approx. 15-20 students; Test and quality project management and correction.
2023–Present	**Automated Software Engineering (MSc)**, Teaching Assistant at the University of Namur, Approx. 15-20 students; Pipeline and DORA metrics concepts, project management and correction.
2022–Present	**Software Verification and Validation (MSc)**, Teaching Assistant at the University of Namur, Approx. 30 students; Software testing and quality exercises design and correction.
2022–2024	**Introduction to programmation in C (BSc)**, Teaching Assistant at the University of Namur, Approx. 40 students; Programmation concepts, exercises correction.
2022–2023	**Analysis and modeling of information systems (BSc)**, Teaching Assistant at the University of Namur, Approx. 40 students; UML concepts, exercises correction.

Work Experience

09/2020–09/2022 **Junior Researcher in Human Computer Interaction**, *University of Namur*, Belgium.
Development of a mobile app to help older people to find things to do near their homes. Funded by the European INTERREG research programme.

01/2020–04/2020 **Research intern**, *Charleroi Town Hall*, Belgium.
Development of visualisations showing the movements of Charleroi's civil servants.

Conference Publications

ASE François Bechet, Jérôme Maquoi, Luís Cruz, Benoît Vanderose, Xavier Devroey, "EnergyTrackr: A Modular Energy Regressions Detection Tool", *International Conference on Automated Software Engineering*

Workshop Publications

DevOpsSustain Jérôme Maquoi, Maxime Cauz, Benoît Vanderose, Xavier Devroey, "Energy Codesumption, Leveraging Test Execution for Source Code Energy Consumption Analysis", *DevOpsSustain Workshop*, co-located with FSE, 2025.

Master Thesis Supervision

2025–2026 Dzenetan Aliti, "A study of the effect of cooperative gamification in the context of software testing training", University of Namur

2024–2025 François Bechet, "Systematic Detection of Energy Regressions in Java Projects and Identification of Regression Code Patterns", University of Namur

2024–2025 Thibaut Berg, "A comparative study of achievements and leaderboards in the context of software testing", University of Namur

2023–2024 Ludovic Evrard, "Optimising energy consumption of showcase websites: a comparative analysis between WordPress sites and static sites", University of Namur

2021–2022 Anthony Di Stasio, "Gamifying the Interreg Smart Socialized Living (SSL) project to encourage older people to use the app", University of Namur

Awards

2020 Best Master Thesis award of the Computer Science Faculty of University of Namur

Invited Talks

2026/01/23 "Raising awareness about source code energy consumption", at the Eco-Responsible Software Working Group Day, Nantes, France

Presentations at International Venues

ASE 2026 "EnergyTrackr: A Modular Energy Regressions Detection Tool", International Conference on Automated Software Engineering, Munich, Germany

FSE 2025 "Energy Codesumption, Leveraging Test Execution for Source Code Energy Consumption Analysis", DevOpsSustain Workshop, co-located with FSE 2025, Trondheim, Norway
